

Notice to Public

For immediate release

Opening of the new Gaspé hospital emergency room

Gaspé, July 15th, 2021 – The CISSS de la Gaspésie would like to inform the population that the new Gaspé emergency room is now in operation since July 15th at 7:00 am.

The emergency room, which was previously located in the back of the Gaspé hospital, is now located at the front on the west side of the hospital.

People who come for laboratory tests, pneumological or respiratory therapy appointments, or visitors must go to the main entrance of the Gaspé Hospital to receive their services (facing the Bay).

We would like to remind you that visiting hours are from 2:00 pm to 3:00 pm during the day and from 7:00 pm to 8:00 pm in the evening.

In order to ensure the best possible service to the population, the CISSS de la Gaspésie has planned to have persons on site during the first days of this change to ensure that everyone is able to find the appropriate entrance for the service that they are looking for.
